Office Communications Made Easy

Cloud Hosted Voice and Collaboration Solution

Exceptional Innovation

E·MetroTel

POWERFUL.
SIMPLE.
RELIABLE.

UCX Cloud Hosted service provides the same powerful, fully featured solution as our premise-based servers.

No-hassle simplicity with a server-free office.

All of our software, features, and applications are designed by us, in-house, and hosted on one of the most reliable and respected networks in the world.

UCx Cloud

Everything your office needs (reliability and simplicity included).

Our Cloud Hosted solution provides simple, reliable, and affordable leading edge communications for your office.

And it's packed with features and applications. In fact it supports the same features and applications that are included in our on-premise server solutions because we understand hosted communications should be simple, not less powerful.
